## IN THE CAUSE OF FREEDOM

By ARTHUR W. MARCHEMONT.

(ALL RIGHTS RESERVED.)

## CHAPTER XXIV.—Continued.

For many minutes previous to the time they slid the screen and made progress impossible, and before they had passed, a clock near by struck twelve.

An hour past the time at which I was to have met Volna. She would surely have given me up, and in all probability had already gone back to the house to which in my fatuous confidence I had entrusted her.

"Where have the strikers come from?" I asked Burki, as a sudden thought occurred me. "From the Church of St. Paul," they have front of the Church of St. Paul. They have an ugly look and we shall have Peterburgers free from the rabble. And it may be even worse here, for the Fraternity have brought arms and are prepared to resist. There will be fighting here tonight."

"Spoken very much like a police agent that," I exclaimed.

"He shrugged his shoulders. 'One gets the habit, I suppose. I was a police agent long before I joined the Fraternity and one judges of things from that standpoint at times. See, they have swept the place clear,' he added, as we reached the Church."

"And at this point we part company, please."

"He seemed great surprise. 'Part company? Why have we been scarcely anything yet?'

"I mean what I say."

"He paused and then his manner changed. 'I am really sorry for you, Mr. Anstruther. 'Sorry for what?'

"Of course, I have seen that I was not wanted, but the fact is I myself am being watched, and I am compelled to keep you for an hour or so."

"You suggested just now that you came here to meet Volna. I repeated back."

"Well, you did ask me to do it. And you put it so naturally that I really thought you were in earnest."

"I want, I don't wish to be seen by my friends to-day in the company of so well known a police agent as you are."

"Let us see then how we can manage it! The simplest way will be for me to drop behind. The friends will not know we are together, and my superiors will see I am obeying orders."

"But I don't wish to be shadowed either!"

"He spread out his hands with an air of bewilderment. 'For the sake of the Fraternity I must not lose my position in the Police. You see that?'

"I see one thing which is enough for me. I am not going to be shadowed. You may as well understand that."

"He sighed as though I were most unreasonable. 'It has always been one of my pet theories that I was a police agent, and I am not."

"Then go your way, and leave me to go mine."

"Yes, I will do that."

"But he kept at my side. 'Then go back. 'Very well. I am sorry I have annoyed you."

"I shall be annoyed if you leave me now."

"I am glad to hear that."

"But you are still coming on."

"I am thinking."

"The square was nearly deserted, and I looked everywhere for Volna. The clock struck the quarter past the hour. She was not there."

"I pulled up. 'I have had enough of this. What are you going to do?'

"I have a suggestion. Let us go to Colonel Bremner and tell him. He is quite reliable."

"Where?"

"The Palace of St. John, No. 17."

"I turned on him sharply in my surprise that he drew back a pace and his right hand went to his pocket, where I guessed he had a revolver. But he looked at me with a calm face, and keeping his eyes on mine jerked his head in the direction of the Palace."

"It is only a short distance across the square there."

"I was now quite clear my scheme had gone wrong. Either Volna had been prevented from coming to meet me, or having come had been scared away by the mob, or had given me up. If she had returned home, she was already in Bremner's power; and the sooner I knew that the better. On the other hand, if she was not there, and he or his men were there, I could confront him with the proof of his double dealing."

"I don't see why we shouldn't adopt the suggestion," I said, indifferently. "If Colonel Bremner has been prevented from coming to meet me, or having come had been scared away by the mob, or had given me up. If she had returned home, she was already in Bremner's power; and the sooner I knew that the better. On the other hand, if she was not there, and he or his men were there, I could confront him with the proof of his double dealing."

Mr. R. Copland's imported Yorkshire terrier bitch, Princess, arrived in Sydney by the Moravian on Monday. This fashionable little toy was whelped on October 17, 1934, and is bred by Mr. W. A. Felton, who is by champion Westbury Fred, who is by champion Duke from Dot, and her dam is Little Dottie, a daughter of Mr. Copland by Mr. Charles Mitchell, one of the leading breeders of Yorkshire terriers.

Another importation of more than usual importance is that of a bulldog imported by the Moravian for Mr. Harold Thomson, of Richmond (Vic.). The new comer is a brindle dog named Moscov Doozvan, who was bred on July 3, 1904, at the celebrated kennels of Luke Chalmers at Manchester. The dog's pedigree, now before me, contains no fewer than 62 names of the most notable pillars of the national breed. Moscov Doozvan is a son of Moscov Doozvan, who was bred by the late Mr. J. H. B. Bates, and is by Duke from Dot, and her dam is Little Dottie, a daughter of Mr. Copland by Mr. Charles Mitchell, one of the leading breeders of Yorkshire terriers.

The schedule of the tenth annual show of the Queensland Kennel Club came to hand on Saturday. The classes number 18; these are: 1, cocker spaniel, 2, bull terrier, 3, bull terrier, 4, bull terrier, 5, bull terrier, 6, bull terrier, 7, bull terrier, 8, bull terrier, 9, bull terrier, 10, bull terrier, 11, bull terrier, 12, bull terrier, 13, bull terrier, 14, bull terrier, 15, bull terrier, 16, bull terrier, 17, bull terrier, 18, bull terrier.

One of the chief events of the week has been the civic welcome to the Prince and Princess of Wales on their return from their Indian tour. There have been some disquieting rumours about the health of the Prince—there seem to be people who take a delight in setting reports of this kind about him. But he looked brown and remarkably well, and his speech was marked not only by eloquence, but by ease and composure of delivery. Evidently the Royal pair enjoyed themselves on their tour, and evidently the Prince is not a whole-hearted believer in the government of the country, there was a certain amount of sympathy in his remarks.

The new comer is a brindle dog named Moscov Doozvan, who was bred on July 3, 1904, at the celebrated kennels of Luke Chalmers at Manchester. The dog's pedigree, now before me, contains no fewer than 62 names of the most notable pillars of the national breed. Moscov Doozvan is a son of Moscov Doozvan, who was bred by the late Mr. J. H. B. Bates, and is by Duke from Dot, and her dam is Little Dottie, a daughter of Mr. Copland by Mr. Charles Mitchell, one of the leading breeders of Yorkshire terriers.

The schedule of the tenth annual show of the Queensland Kennel Club came to hand on Saturday. One of the chief events of the week has been the civic welcome to the Prince and Princess of Wales on their return from their Indian tour. There have been some disquieting rumours about the health of the Prince—there seem to be people who take a delight in setting reports of this kind about him. But he looked brown and remarkably well, and his speech was marked not only by eloquence, but by ease and composure of delivery. Evidently the Royal pair enjoyed themselves on their tour, and evidently the Prince is not a whole-hearted believer in the government of the country, there was a certain amount of sympathy in his remarks.

Mr. R. Copland's imported Yorkshire terrier bitch, Princess, arrived in Sydney by the Moravian on Monday. This fashionable little toy was whelped on October 17, 1934, and is bred by Mr. W. A. Felton, who is by champion Westbury Fred, who is by champion Duke from Dot, and her dam is Little Dottie, a daughter of Mr. Copland by Mr. Charles Mitchell, one of the leading breeders of Yorkshire terriers.

Another importation of more than usual importance is that of a bulldog imported by the Moravian for Mr. Harold Thomson, of Richmond (Vic.). ## THE WEEK IN LONDON.

LONDON, May 18.

TURKEY'S BACK-DOWN.

The prompt and satisfactory settlement of our dispute with Turkey over the Sinai Peninsula has won the Government much credit with the country. The firm way in which an incident which there is reason to believe was regarded more seriously in diplomatic circles than by the country at large was handled by the Foreign Office has been generally commended.

Fearing a financial disaster and a upheaval of the people in the capital and provinces, the Russian Government has decided to issue a manifesto warning the nation that under no circumstances would the agrarian proposals of the Duma for setting apart 100,000,000 acres of land for the peasants be adopted.

Many great meetings held at St. Petersburg have resulted to support the Duma. There has been a big fall in all industrial securities on the St. Petersburg Bourse.

## WORK FOR WOMEN.

## OPPORTUNITIES IN COLONIES.

(FROM OUR SPECIAL REPORTERS.)

LONDON, June 19. At the instance of the Countess of Aberdeen, Mrs. James Bryce, and other educated women, a conference was held in London to demonstrate that the colonies present openings for educated and trained women to undertake lighter kinds of agricultural work, such as fruit preserving, bottling of fruit, poultry and bee keeping, and dairying; also to demonstrate that there are openings for experts in domestic work.

Mr. John Cockburn, who presided, stated that Canada and Australia had 250,000 more men than women. There was plenty of scope in Australia for women trained for any definite employment except clerical.

Mr. B. R. Wise said there was an enormous demand for women willing to engage in domestic and agricultural pursuits. Mr. Napier stated that 54,000 women were needed in New Zealand, where special facilities were given for associated groups of ladies qualified to engage in fruit-growing.

## STATE POLITICS.

## THE PREMIER'S SPEECH.

(FROM OUR SPECIAL REPORTERS.)

The main features of the Premier's speech were freely discussed in political circles yesterday, and there was a general agreement among Ministerial supporters that the programme outlined was both comprehensive and satisfactory. The Labour Opposition, however, claimed that as a policy statement the address was of too vague a character, and gave but a very slight indication of the intentions of the Government, particularly with regard to the most pressing questions, about which something like definite action had been hoped for.

Mr. Deakin also mentioned the fact that the bill had been passed by the House of Representatives on June 15, and that it was now being considered by the Senate. # CURE

THE WORD CURE.—There are many kinds of cures—there's the funny man whose comicalities tend to drive away the blues, and for that reason we call him a "real cure." We have the man who cures bacon; and the person claims to know something about the cure of souls. Then there are all sorts of medical cures—from the tincture that will set a limb as easily as it cures the measles, down to the pills that remove a kettle's boil, if they "won't wash clothes." Then we have a perfect cure in Woods' Great Peppermint Cure, which has for years stood the test, and is continuously gaining popularity as the infallible remedy for all lung ailments, flatulency, etc. It is sold everywhere in bottles at 1s 6d and 2s 6d, and the directions are simple.
